Portfolio: Still building

PROFESSIONAL SUMMARY

Full-stack Developer with hands-on building experience building responsive and scalable web applications using React, Node.js, Express, and MongoDB. Experienced in developing RESTful APIs, implementing secure authentication systems, and integrating frontend interfaces with backend services. Strong problem-solving skills with a focus on clean, maintainable, and well-structured code.

CORE SKILLS

- **Frontend:** HTML, CSS, JavaScript, React, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express
- **Database:** MongoDB
- **Tools & Other:** Git, GitHub, REST APIs, Firebase Hosting, Figma-to-Code Conversion

PROFESSIONAL EXPERIENCE / PROJECTS

BookEase – Service Booking Platform

- Developed a web application that allows users to easily book a variety of services online.
- Implemented secure authentication and protected routes for user accounts.
- Built a responsive frontend to ensure seamless user experience on both desktop and mobile devices.
- Designed backend RESTful APIs to handle bookings, service listings, and user data efficiently.

Bubulizer – E-commerce Herbal Products Website

- Built an e-commerce platform for herbal product sales with secure order placement and payment processing.

-
- Developed RESTful APIs to manage products, orders, and user accounts.
 - Implemented dynamic frontend components for product browsing, cart management, and checkout flow.
 - Ensured responsive design and optimized site performance for better user experience.

Pure Water Ordering Website

- Developed a website for a pure water company where wholesalers and retailers can place orders online.
- Automated order notifications by integrating WhatsApp message templates sent directly to the admin.
- Designed RESTful APIs for order processing and user management.
- Built a responsive interface to simplify ordering for both retailers and wholesalers, improving operational efficiency.

EDUCATION

SQL College of ICT Diploma in Web Development & Software Engineering
(2025 – Present)
