Portfolio: second-portfolio-two.vercel.app | github.com/temi234-cmd

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building responsive and scalable web applications using React, TypeScript, Node.js, Express, and MongoDB. Experienced in developing RESTful APIs, implementing secure authentication systems, and integrating AI-powered features into production applications. Currently working as a Frontend Developer at DataEre, with a growing portfolio of real-world projects. Strong focus on clean, maintainable code and exceptional user experience.

CORE SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Tailwind CSS, Bootstrap
Backend: Node.js, Express
Databases: MongoDB
Version Control: Git, GitHub

PROFESSIONAL EXPERIENCE

DataEre | Frontend Developer | *April 2025 – Present*

- Developing and maintaining responsive frontend features for the company's web platform using React and JavaScript.
- Collaborating with the product and design team to translate Figma designs into pixel-perfect, accessible UI components.
- Participating in code reviews, contributing to a clean and scalable codebase aligned with best practices.

PROJECTS

FocusFlow – AI-Powered Productivity App — *React, TypeScript, Node.js, MongoDB, AI*

- Built a full-stack productivity app featuring habit tracking, task management, streak reminders, and push notifications.
- Integrated an AI engine that generates personalized weekly insights based on user activity and performance data.
- Implemented real-time analytics dashboard to visualize user productivity trends and habit completion rates.
- Live: https://tryfocusflow.vercel.app/

Bubulizer – E-commerce Herbal Products Website — *HTML CSS JAVASCRIPT*

- Built an e-commerce platform for herbal product sales with cart management, checkout flow, and payment processing.
- Developed RESTful APIs to manage products, orders, and user accounts; optimized site performance for faster load times.
